

ATLANTIC CITY EDUCATION/NJEA

PRESENTS Trainings FOR All Members

Cyberbullying

Educators need to understand that the greatest risk our students face online is being denied access. The internet is essential to our children's education, future careers and lives. Even the most experienced internet user doesn't understand how children use the internet and how to help them have a safer and more enjoyable surfing experience. This workshop will share information about what our students are doing online and strategies to help them understand some of the potential dangers they face. We will discuss strategies for educators to communicate these dangers to students. Furthermore, we will discuss the new social media policies that have been adopted by NJ school districts. Each participant will receive 2 hours of professional development credits.

Date: 10/28/15

Time: 4:00-6:00

**Place: Angelo's Fairmount Tavern, Atlantic City
A buffet dinner will be served after the workshop.**

Please tear off and return to Marcia Genova, Atlantic City Education Association, 1125 Atlantic Avenue, Suite 512, Atlantic City, New Jersey 08401 no later than October 14th if you plan to attend.
